**SUBJECT : Warranty period extension for ZANOTTI Un0°**

We are sending you herewith attached, your copy of warranty conditions for the unit bought in ZANOTTI.

This warranty copy must always follow the refrigerating equipment, as it is the ONLY document which vouches the warranty validity for a period of 12 (twelve) months starting from the date the refrigerating equipment enter in operation at any ZANOTTI service centre in Italy or any foreign country.

We would like to inform you that this warranty is extended to further 12 ( twelve ) months for the following components:

- diesel engine and relevant internal parts, including the water pump
- compressor, including gasket of the shaft
- mechanical coupler, provided that the hours of functioning of diesel engine are lower than 2500 hours
- condenser, evaporator and radiator coil
- electrical motor
- starting engines
- chassis
- liquid receiver
- high and low pressure switch
- oil separator
- pulleys
- fans (not motorfans)
- check valves, expansion valve, solenoid valves (only the body), 4-way valve (only the body), pressure regulation valves, service valves
- Clixon and temperature probes
- Transformer
- Cab controller

**At conditions that the end user has carried out all the necessary standard service mentioned in the ZANOTTI use and maintenance book in his hands.**

We would like to point out that the **Warranty Service** can be carried out only at the authorized ZANOTTI service centres during the working hours and it does **not include labour costs and phone calls.**

The warranty period of the ZANOTTI refrigerating equipment declines if one has been using non original spare parts or if it has been verified tampering to the refrigerating equipment.

We thank you for having choosen ZANOTTI and we remain at your full disposal for any information you might need,

Yours Faithfully  
 Zanotti S.p.A.
